HOW BEST TO LEARN

HOW TO LISTEN BETTER

Listening is one of the most important skills you can develop to do well in school.

It is a difficult skill but you can master it.

Before class:

- *Think about what the class is going to be about*
- *Think about what were the main points covered in the last lesson*
- *Look over what your homework task was for this class*

During class :

THINK !

- *Did your homework have anything to do with today's work ?*
- *Does your own general knowledge provide any information about the topic ?*
- *What comes to mind during the instructions ?*

THEN

CONCENTRATE ON THE SUBJECT BEING TAUGHT

After class:

- *Look over your notes*
- *Think about what was covered*
- *You might want to rewrite your notes*
- *You might want to underline and/or highlight important ideas and words*

REMEMBER

- *Good listening means you are paying attention*
- *Try to hear what is said not what you think is being said*
- *Think "around " the topic and between the lines*

AND connect new knowledge to what you already know

LISTENING IS AN ACTIVE THING
